## Eye Care Station

This wall mounted eyewash station holds two 500ml bottles of sterile saline eyewash solution and incorporates a mirror to assist the self administration of eyewash. The unit has a highly visible design and the instruction panel gives clear instructions on the correct use of eyewash.

Dimensions (hwxwd), mm: 510x290x70.

Cat. No.	Description	Price
301-069	Eye care station (complete)	POA
301-070	Eye care station (empty)	POA

301-042

301-071

## Eyewash Wall Dispenser

Acrylic cabinet, complete with plastic mirror and clear instruction panel, for dispensing 20ml eyewash irrigant single use pods. Will hold up to 30 eyewash pods (supplied separately, see page 863). Suitable for wall mounting (note that wall fixings are not supplied).

Dimensions (lxw), mm: 350x290.

Cat. No.	Description	Price
301-042	Eyewash wall dispenser (empty)	POA

301-061

## Standard Eyewash Cabinet with Mirror

A durable moulded plastic cabinet with hinged door and no metal parts. It has a mirror on the front, making it ideal for self application of eyewash. The cabinet is supplied either empty or complete with two 500ml sterile saline bottles, two sterile eye pad dressings and a plastic eye shield to protect the eye. Clearly labelled with instructions for use on the door. Suitable for wall fixing (wall fixings are not supplied).

Dimensions (hwxwd), mm: 370x280x100.

Cat. No.	Description	Price
301-071	Eyewash cabinet with mirror (complete)	POA
301-043	Eyewash cabinet with mirror (empty)	POA

301-060

## Standard Eyewash Kit

A moulded plastic wall cabinet with an integrated wall bracket containing two 500ml bottles of sterile saline eyewash and two sterile eye pad dressings. Two secure catches and an integrated carrying handle enable the station to be carried to the incident location. A foam insert holds the contents securely in place. The front of the cabinet is clearly labelled with instructions for use. Wall fixings are not supplied. This kit is suitable for use with the Evolution series modular first aid safety stations. See page 867.

Dimensions (hwxwd), mm: 260x210x90.

Cat. No.	Description	Price
301-061	Standard eyewash kit (complete)	POA

## Deluxe, Portable Eyewash Cabinet

This cabinet comprises a robust, orange shatterproof ABS plastic case with a clear perspex door and rubber dust and moisture seal. Two secure catches and a carrying handle enable the station to be easily carried to the incident location. It is available either with or without 2x500ml sterile saline bottles and 4 sterile eye pads with bandages. A quick-release wall or bulkhead fixing bracket and instructions are included (but note that wall fixings are not supplied).

Dimensions (hwxwd), mm: 290x200x110.

Cat. No.	Description	Price
301-060	Eyewash cabinet (complete)	POA
301-046	Eyewash cabinet (empty)	POA

## Eyewash Irrigant and Accessories for Eyewash Cabinets

### Eyewash Irrigant Single Use Pods

Sterile eyewash irrigant (sterile sodium chloride, Ph. Eur. 0.9% w/v) in 20ml pods for single use. The pods facilitate the accurate controlled flushing of the eyes and are quick and easy to use by twisting off the cap and lightly squeezing the tube. Suitable for use in the Eyewash Wall Dispenser (see catalogue code 301-042).

### Eyewash Irrigant Single Use Bottles

Sterile eyewash irrigant (sterile sodium chloride, Ph. Eur. 0.9% w/v) in 150ml bottles for single use. The bottles are designed to be quick and easy to use by twisting off the top and lightly squeezing the bottle to give controlled irrigation of the eyes.

### Eyewash Irrigant Bottles

Sterile eyewash irrigant (sterile sodium chloride, Ph. Eur. 0.9% w/v) in 500ml bottles with screw caps. Suitable for use in emergency eyewash cabinets (see catalogue codes 301-060, 301-061, 301-043 and 301-046).

### Sterile Eye Pads with Bandages

Highly absorbent soft and comfortable wound dressing to cushion the eye and provide initial protection from possible infection. The elastic bandage secures the eye pad in place.

## Cederroth Eyewash System

A new system for eyewash application. The 500ml bottle can be locked into the optional bracket and opens automatically when removed with a twisting motion. The integrated eye cup is designed for maximum eyewash flow with minimum spillage. The dust cap protects the eyebath from contamination and acts as an opening device. The buffered solution quickly reacts to neutralise acids and alkalis whilst washing the eye. Instructions are clearly printed on the label in all major European languages.

Cat. No.	Description	Pack	Price
301-072	500ml Cederroth eyewash bottle	1	POA
301-073	Cederroth wall bracket with mirror	1	POA
301-074	500ml Cederroth eyewash with wall bracket	1	POA

## Optrex Emergency Eyewash and Eyewash Stations

The Optrex emergency eyewash is available in 500ml bottles. These bottles are designed to allow a controllable flow of saline through grip-pressure whilst the eye guard protects the eye during irrigation.

The double emergency eyewash station holds 2x 500ml bottles. The triple emergency eyewash station holds 3 x 500ml bottles. The seal on each bottle is broken as it is removed from the station.

Cat. No.	Description	Pack	Price
301-062	Optrex eyewash, 500ml bottle	3	POA
301-063	Optrex double eyewash station (eyewash bottles not included)	1	POA
301-064	Optrex triple eyewash station (eyewash bottles not included)	1	POA

## Eye Care Poster

This safety poster with full colour illustrations gives step-by-step instructions covering all elements of first aid for eyes, including sections on chemical contamination, bruised sockets and arc eye injuries. Durable, laminated construction.

Dimensions, mm: 840x590.

## Emergency Eyebath/Facewash Fountain

A range of emergency eyebath/facewash fountains manufactured from robust acrylic capped ABS plastic with various mounting methods. Each model has a simple and rapid automatic mechanism for turning the water flow on and off, either by opening and closing the lid or by operating a panic bar. All feature aerated diffusers and flow regulators to give a gentle and effective flow of filtered aerated water.

### Model STD-45G

A wall mounted model that features a lid fixed directly to the water valve to operate the water flow.

- Inlet size: 15mm compression of ½ in. male BSP
- Minimum pressure: 2 bar G (kg/cm<sup>2</sup>)

### Model STD-45G/P

A pedestal mounted model that features a lid fixed directly to the water valve to operate the water flow.

- Inlet size: 1° in. female BSP
- Minimum pressure: 2 bar G (kg/cm<sup>2</sup>)

Cat. No.	Description	Mechanism	Mounting	Price
301-036	Model STD-45G, eyebath fountain	Lid	Wall	POA
301-037	Model STD-45G/P, eyebath fountain	Lid	Pedestal	POA

## Emergency Eye and Facewash Unit

Portable, hand-operated, emergency eye and facewash unit, incorporating a 9 litre stainless steel cylinder with pressure gauge and eye/facewash diffuser on flexible hose. Capable of delivering a copious quantity of aerated water for two minutes. Available complete with wall cabinet if specified.

- Minimum pressure: 7bar G (kg/cm<sup>2</sup>)

Cat. No.	Description	Price

## Indoor Emergency Safety Showers

A range of unheated emergency safety showers ideal for laboratory and industrial environments where ambient conditions are unlikely to freeze or overheat. The range includes both wall and ceiling mounted units, supplied with a red nozzle as standard. An optional plastic shower rose is available. Models are available in galvanised mild steel protected by green Hammerite enamel or in semi-polished stainless steel.

### Model STD-23G/V

- Unheated ceiling mounted emergency shower with ceiling mounting plate
- Inlet size: 1in. female BSP
- Minimum pressure: 1.5bar G (kg/cm<sup>2</sup>)

### Model STD-23G/H

- Unheated wall mounted emergency shower with wall mounting plate
- Inlet size: 1in. female BSP
- Minimum pressure: 1.5bar G (kg/cm<sup>2</sup>)
